Conference Structure

The Conference scientific programme will include plenary sessions in addition to special interest workshops. Major keynote sessions will be on Friday morning in conjunction with the German Congress. The programme will feature international Manual Medicine clinicians and researchers.

Conference Language

The official Conference language is English. Translations in German are not provided. The official language of the German Congress (September 24 – 26) at the same location is German.

Saturday, September 25, 2010: Clinical Symposium.

A. 10:00 – 12:00	New evidences in functional tests and RCTs
a. b. c. d. e. f. g.	KB Niemier et al. – Reliability of functional tests for stabilization & hypermobility H Locher/W Heymann – National guideline on Low Back Pain A Steinmetz – Sensorimotor alterations in Violinists with neck/shoulder pain W von Heymann – Prospective randomized clinical trial MT vs. NSAR vs. Placebo VN Galaguzo et al. – DD of neurologic evidence of muscle interscapular pain JY Maigne – Interexaminer reproducibility of examination of the neck in MM M Fischer – CMD and hip-abduction-test
B. 13:30 – 15:00	Miscellaneous
a. b. c. d. e. f. g.	M-J Teyssandier – The two functional spines SP Kanaev, SN Rasstrigin – MT in complex treatment of scalene-syndrome S Vulfsons – Language of chronic musculoskeletal pain JY Maigne – Searching the side of the pain without asking the patient S Hosono et al. – MM and microprocessor passive motion analysis, oscillation percussion therapy S Plesca – Manual treatment in chronic tension-type cervicogenic headache Ch Larsen – Introduction to Spiraldynamik® - intelligent movement
C. 15:00 – 17:00	Cervical spine – vascular approach
a. b. c. d. e. f. g. h.	AB Sitek, AJ Nefedov – Anatomy and physiology of vertebrobasilar systems AB Sitek, K Kusminov, MA Bakhtadze – Degenerative processes vertebrobasilar MA Bakhtadze – Cervicogenic headache by hypoperfusion of a. vertebralis IN Sharapov et al. – Ultrasound monitoring of acute cervical radiculopathy A Nefiodov – Cervical manipulation to prevent cerebral vascular insufficiency AI Nebogin et al. – Cervical-vestibular syndrome NA Krasnoyarova – Manual Therapy in vertebra-basilar insufficiency DA Bolotov – Autoimmune mechanisms of cervicogenic headache
