International Federation for Manual/Musculoskeletal Medicine Statutes

¹ The Federation is to be known as the **International Federation for Manual/Musculoskeletal Medicine**, abbreviated as **FIMM**. Its registered office is B-4608 WARSAGE, Thier Saive, 49; it is subject to the Belgian law of the 25th October, 1919 granting legal status to international associations with philanthropic, religious, scientific, artistic or pedagogic aims..

Article 1 Name and Registration

- ¹ The aims of the Federation are
- to develop an active, internationally recognized umbrella organization,
 - to attract national societies and policy makers worldwide, whose main function is gathering and disseminating knowledge and expertise.
 - to proactively advance integration of Manual/Musculoskeletal Medicine into health care.

Article 2 Aims of the Federation

² The Federation strives to be **The International Standard** in the world for Manual/Musculoskeletal Medicine.

FIMM General Assembly 2017

About FIMM

FIMM is an International Medical Association comprised of individual national societies of similar philosophical beliefs and practices. It is a non-profit organisation representing 23 national societies. Through scientific and educational channels, together with evidence-based research, FIMM aims to create consistently high standards in the practice of Manual/Musculoskeletal Medicine world-wide.

For a large group of patients with musculoskeletal disorders, the healthcare systems of many countries do not deliver an adequate service either in a timely fashion or at all. This unmet need, in many countries, leads to unnecessarily prolonged suffering and disability, together with economic consequences due to loss of productivity and drains on welfare, where it is available, as well as inappropriate medical costs.

Identifying this unmet need has led FIMM to devise a training program in order to produce a medical specialist capable and competent to satisfy the requirements of this large patient group, in a focused, timely, evidence-based and economical manner.

This statement was adopted by the FIMM General Assembly 2009.

FIMM Vision

FIMM is recognized as the international federation, disseminating knowledge and expertise integrating Manual/Musculoskeletal Medicine to Health Care. • [link](#)

New legal and constitutional structures for FIMM ?

Questionnaire

- Launched January 21, 2016
- Paper and online version
- 19 questions
- Possible answers:
 - definitely yes
 - yes
 - does not matter
 - no
 - definitely no
 - empty

English version

Le texte anglais est une traduction du texte français. Selon le paragraphe 1 de l'article 10 c'est un texte de travail.
 Der Englische Text ist eine Übersetzung aus dem Französischen. Gemäß Absatz 1 Artikel 10 entspricht er einem Arbeitstext.
 The English text is translated from the French text. According to paragraph 1 of article 10 it is used as working text.

Article 1	The Association is to be known as the International Federation for Manual/Musculoskeletal Medicine , abbreviated as FIMM . Its registered office is B-4608 WARSAGE, Thier Saive, 49; it is subject to the Belgian law of the 25th October, 1919 granting legal status to international associations with philanthropic, religious, scientific, artistic or pedagogic aims.
	<i>Il est constitué une Association reprise sous le nom de Fédération Internationale de Médecine Manuelle, en abrégé FIMM. Son siège officiel est à B-4608 WARSAGE, Thier Saive, 49 et elle est soumise à la loi belge du 25 octobre 1919 accordant la personnalité civile aux associations internationales poursuivant un but philanthropique, religieux, scientifique, artistique ou pédagogique.</i>
	Considerations I The French and the German names of the Federation are not equivalent to the English name. For strategy reasons "Musculoskeletal" was pinned to the English line only. For some members the term <i>Musculoskeletal</i> is essential, for some it is disturbing.
Question 1	Should the name of the Federation be: <i>Fédération Internationale de Médecine Manuelle</i> <i>International Federation for Manual/Musculoskeletal Medicine</i> <i>Internationale Gesellschaft für Manuelle Medizin</i>
Question 2	Should the name of the Federation be: <i>Fédération Internationale de Médecine Manuelle</i> <i>International Federation for Manual Medicine</i> <i>Internationale Gesellschaft für Manuelle Medizin</i>

Changes 2006 -> 2016:

Article 8

Changes 2006 -> 2016:

General Assembly

- Fractions of 25 - 99 have 1 vote
- Fractions of 100 - 1'999 have 2 votes
- Fractions of 2'000 or more have 3 votes

The right to vote is limited to *Fractions*

- consisting of one or several Ordinary Members
- reaching together a total of at least 25 qualified physicians

Changes 2006 -> 2016:

After **2023** qualified physicians must fulfil
the 300 hours of training in
Manual/Musculoskeletal Medicine criteria of the
FIMM Guidelines for Basic Training and Safety

Changes 2006 -> 2016:

Article 10

English – French – German

are the official languages of the Federation

Changes 2006 -> 2016:

Article 3
