www.fimm-online.com

WELCOME

Dear friends and colleagues,

Once again, and this will be number 41, it is a pleasure to announce the celebration of Annual Congress, which will be held from the 24th to the 26th of October 2019, in the gracious city of Elche, in the eastern part of Spain, close to the Mediterranean Sea.

But this year it will not be just another Congress. As active members of FIMM (International Federation of Manual/Musculoskeletal Medicine) we have been granted the honor of organizing FIMM 18th International Scientific Conference, which will be held on October 25th within SEMOYM Congress (FIMM-SEMOYM Day) and FIMM 54th General Assembly.

Such scenario gives us the opportunity to meet speakers of recognized international prestige who will be offering high level lectures and workshops on subjects that are not regularly addressed in our Congresses. This is why we decided to set up our FIMMSEMOYM Day with the title "Manual Medicine from Cradle to Grave", where our lecturers will bring us through different MM approaches to patients from pregnancy to old age.

This International Conference will complete our usual program, which will not be less interesting: lecturers will approach the scientific evidence that supports Manual Medicine and how to elaborate a high quality scientific work and all the bases that support its mechanism of action through the extracellular matrix. They will also show us the basis of the neurovegetative medicine and musculoskeletal regenerative medicine.

And of course, our well-known practical workshops on Manual Medicine, this time applied to the cervical and dorsal spine and upper limbs.

I hope that these contents are attractive enough for you, so that we can count on you in Elche! That will for sure make it a better Congress.

Save the dates in your agendas.

M^a Victoria Sotos Borrás

Chairwoman 41 International SEMOYM Congress

Chairwoman Local Committee 18th FIMM International Scientific Conference

COMMITTEES

ORGANIZING COMMITTEE

Chairwoman

M^a Victoria Sotos Borrás

Vocals
